

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

June 16th-30th, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 16-30, 2004**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003
To: All CEQA Lead Agencies
From: Terry Roberts, Director, State Clearinghouse
Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Wednesday, June 16, 2004</u>			
2003071177	General Plan Amendment No. 668/Change of Zone Case No. 6809/Specific Plan No. 333 Riverside County Planning Department Lake Elsinore--Riverside Change of Zone No. 6809 is a proposal to change the zoning classifications of the subject property from R-R (Rural Residential) to SP (Specific Plan). General Plan Amendment No. 668 is a proposal to modify the Elsinore Area Plan to be in conformance with the proposed Specific Plan. Specific Plan No. 333 is a proposal to create a master plan community of 156.9 acres to include 377 dwelling units with an overall density of 2.4 dwelling units, approximately 7.2 acres of park space which includes one community park and three pocket parks and 43.6 acres of open space.	EIR	07/30/2004
2003021149	Hawthorne Boulevard Specific Plan Hawthorne, City of Hawthorne--Los Angeles The project is the adoption and implementation of the Hawthorne Boulevard Specific Plan that provides a framework for revitalization and future development of the Specific Plan area. The specific plan establishes land use districts, development standards, and design standards and guidelines for a 2-mile Hawthorne Boulevard corridor in the City of Hawthorne.	FIN	
2004041120	Proposed Tentative Tract TT-04-026 Victorville, City of Victorville--San Bernardino To allow for the development of an 85-lot Single-Family Residential subdivision.	Neg	07/15/2004
2004061081	Transfer of Territory from Perris School District / Perris Union High School District to Corona-Norco Unified School District Riverside County Perris, Corona--Riverside School District boundary change / Transfer of territory from Perris School District / Perris Union High School District to Corona-Norco Unified School District.	Neg	07/15/2004
2004061082	Corcoran Storm Drainage and Sidewalk Improvements Corcoran, City of Corcoran--Kings The proposed project would add sidewalks and storm drainage facilities including curbs, gutters, storm drain pipes and a 24 acre-foot retention basin in the project areas to alleviate flooding problems due to the lack of existing and/or insufficient drainage systems. All improvements would be constructed within existing City rights-of-way. Storm drains would be added along Ottawa, Pueblo, King, Dairy, 6 1/2, and Whitley Avenues. Sidewalks, curbs, and gutters would be added along Pueblo, Van Dorsten, Ottawa, Osage, King, Sherman, 6 1/2, Olympic, and Branum Avenues.	Neg	07/15/2004

2004061083	Proposed Tentative Tract TT-04-039 Victorville, City of Victorville--San Bernardino To allow for the development of a 58-lot single family residential subdivision.	Neg	07/15/2004
2004061084	Proposed Tentative Tract TT-04-038 Victorville, City of Victorville--San Bernardino To allow for a vested 84-lot single-family residential subdivision on 20.0 acres of primarily undisturbed land.	Neg	07/15/2004
2004061085	Soule Park Golf Course Fish Passage Restoration Project Ventura County Ojai--Ventura The project is a fish passage restoration project that involves removing two fish passage barriers, stream grading, and the construction of a wide spanning bridge that will accommodate steelhead and other species migration and automobile traffic across the bridge.	Neg	07/15/2004
2004061086	Proposed Tentative Tract TT-04-037 Victorville, City of Victorville--San Bernardino To allow for the development of a 100-lot single family residential subdivision.	Neg	07/15/2004
2004062077	East Stockton Boulevard / Grant Line Road Intersection Improvement Project Elk Grove, City of Elk Grove--Sacramento The proposed project involves the installation of a traffic signal at the intersection of Grant Line and East Stockton Boulevard. The intersection will be relocated approximately 650-feet east of its current location and roadway improvements will also be constructed. The northwest corner of the intersection of East Stockton Boulevard and Grant Line Road will be widened at the corner and taper to meet the existing roadway approximately 120 feet north of the centerline of Grant Line Road. Similarly, the roadway would taper to the existing roadway width approximately 140 feet west of the center of Grant Line Road to allow for a right turn lane, through lane, and left turn lane. East Stockton Boulevard and Grant Line Road will be re-stripped in the areas of construction to mark the added lanes.	Neg	07/15/2004
2004062078	Paradise Downtown Revitalization Area Clustered Wastewater Treatment System(s) Paradise, City of Paradise--Butte Master Plan for proposed establishment of a clustered collection treatment and wastewater disposal system(s) to service the town adopted "Town of Paradise Downtown Revitalization" Master Plan area. 2004062080	Stearn Residence Use Permit and Development Plan Review Sacramento County Sacramento--Sacramento The project consists of a Use Permit and Development Plan Review to allow the construction of a new single family residential dwelling on a 16,440 +/- sf undeveloped residential parcel within the boundaries of the Garden Highway Special Planning Area (SPA), pursuant to Section 501-527(a) (1); 501-257(b) (2) and 501-252 of the SPA.	Neg	07/15/2004
1999091029	Port of Los Angeles Channel Deepening Project - Sand Mining Operations U.S. Army Corps of Engineers San Pedro, Wilmington--Los Angeles The purpose of the proposed project is to deepen the inner harbor of the Port of Los Angeles. The purpose modifications is to utilize available coarse-grained fill material to complete the Pier 300 Expansion Site.	SEA	06/23/2004
1999102083	Branciforte Creek Federal Flood Control Channel Maintenance Santa Cruz, City of Santa Cruz--Santa Cruz Maintenance and adaptive management of the Branciforte Creek Flood Control Channel, including removal of sediment, vegetation, and debris to maintain flood water capacities and protect the structure, consistent with the requirements of the U.S. Army Corps of Engineers, following methods prescribed by responsible agencies to reduce any potential impacts to fish or other riparian species. This Initial Study supplements a Mitigated Negative Declaration issued for the project in May 2002, to provide more clarity on the project details which were required through subsequent agency review.	SIR	07/30/2004
2004061080	Draft Tribal Environmental Assessment of Off-Reservation Impacts for the La Posta Band of Mission Indians Gaming Facility La Posta Band of Mission Indians --San Diego The proposed project consists of the development of a 20,000-square foot casino facility on an approximately 20-acre portion of the Reservation. The proposed site for the casino facility is within the most southeastern portion of the Reservation, adjacent to an existing access road. The 20,000 square foot facility would consist of approximately 10,000 square feet of gaming area with up to 350 slot machines and 12 black jack tables. The remaining area would consist of a 15 to 30-seat bar area, a buffet and restaurant area with up to 85 seats, and back of the house and support facilities.	TRI	07/15/2004
1997022074	Draft Supplemental to the Revised Twelve Bridges Specific Plan SEIR Lincoln, City of Lincoln--Placer SAA# 2004-0090-2 Construct two storm water outfalls and a vortex wier device at station 6.26.	NOD	
1998031129	Loma Alta Creek Detention Basins Project Oceanside, City of Oceanside--San Diego Alter the streambed of Garrison Creek and Loma Alta Creek Detention Basin Project. Project activity includes the construction of two detention structures (each structure consists of two detention basins separated by a laterl baffle wall), and four concrete outlet structures. The detention basins will be constructed using masonry walls, which requires a trench in order for the wall footings to built and anchored.	NOD

2003121124	Jamacha Landfill Desiltation Basin San Diego County Department of Public Works --San Diego CDFG intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 (SAA #1600-2004-0046-R5) of the Fish and Game Code to the project applicant, the County of San Diego. The applicant proposes to alter the stream to widen the channel, install rip-rap on the banks, and create an earthen berm along the eastern edge of the stream. The channel will discharge into two underground high-density polyethylene culverts, then drain to an aboveground 36-inch HDPE culvert and finally into the proposed desiltation basin.	NOD	
2004011144	Western Fox Field Property Development Lancaster, City of Lancaster--Los Angeles CDFG is executing a Lake and Streambed Alteration Agreement (SAA # 1600-2004-0070-R5) pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Lancaster. The applicant proposes to alter the streambed by filling 2.59 acres of streambed to construct an industrial subdivision.	NOD	
2004021106	Krieger Child Care Center Expansion Project University of California, Los Angeles --Los Angeles This project proposes to expand the existing Krieger Child Care Center (KCCC) to accommodate an additional 100 licensed child care spaces for preschool children of UCLA faculty, staff and students. The expansion is necessary to address a critical need for child care services for families with young children. The expansion would consist of construction of a new one-story approximately 7,000 gross square foot (gsf) building with 2,500 gsf of covered and unenclosed patio space. The project would be constructed on an approximately 1.2 acre site consisting of the existing Parking Lot #10 and an adjacent portion of undeveloped land, south of the existing KCCC located in the Northwest zone of campus near the intersection of Sunset Boulevard and Veteran Avenue. A replacement parking lot to provide 25 parking spaces, and improvements to the access roadway to accommodate 25 loading and queuing spaces would also be part of the project. The expansion also includes provision of approximately 15,640 square feet of outdoor play area for pre-school children, infants and toddlers. The proposed project is consistent with the land use principles established in the UCLA 2002 Long Range Development Plan, and development allocation analyzed in the 2002 LRDP Final EIR, certified in 2003.	NOD	
2004041005	Water Well Located on the Cambria Ventures, Inc. Property Livingston, City of Livingston--Merced The proposed project would be drilled approximately 350 feet deep and could yield 1,000 to 1,400 gallons of water per minute. Sodium hypo-chloride (liquid chlorine) would be used at the wellhead to treat the water before its distribution into the City's public water system. After construction of the well, the applicant will dedicate the well and the land to the City for ownership and maintenance on a permanent basis.	NOD

2004069060	San Fernando Senior Housing Development Project Los Angeles County --Los Angeles The project involves construction of 98 one bedroom senior apartment units on three sites in the City of San Fernando. The building at site one will consists of 21 units and cover approx. 20,000 square feet at Kalisher Street and Coronel Street. Site two will consist of 25 units and cover approx. 25,000 square feet at Kalisher Street and Celis Street. Site three will consist of 52 units and cover approx. 35,000 square feet at Park Avenue and First Street. Existing structures will be demolished including two structures at site one, four at site two, and five at site three. Off-site improvements may include curbs, gutters, sidewalks, driveway, handicap ramps, utility connections and street trees.	NOD	
2004069061	Arco Maintenance Facility and Car Wash Grading Permit, L14322, Log No. 02-19-026 San Diego County --San Diego The project proposes the grading associated with the following: removal of existing auto repair facility, construction of an auto maintenance center (3,192 sq ft) and car wash facility (2,097), removal of A.C. pavement, restructuring of access to the proposed uses, retaining wall associated with the buildings (max height 11 ft) and 44 half width improvements of the westerly side of Jefferson Road (curb, gutter, sidewalk, driveway, A.C. pavement, street light, and traffic striping). The project proposes 1,000 cubic yards of cut with a maximum slope ratio of 2:1 with a height of 5 feet and 500 cubic yards of fill with a max slope ratio of 2:1 with a max height of 3.5 ft.	NOD	
2004069074	Luhmann Estates Trust Fish & Game #3 --Napa In conjunction with a parcel split to provide building sites, the Operator proposes to construct two bridges over Sage Creek and an unnamed tributary to Sage Creek on the Sage Creek Estates property located on Sage Canyon Road approx. one mile south of the intersection with Lower Chiles Valley Road, Napa County. The CDFG is executing a Lake and Streambed Alteration Agreement 1600-2003-0112-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Michael O'Hanyon/ Sage Creek Estates.	NOD	
2004068329	Abandon Old Pool Heater Underground Tank Parks and Recreation, Department of --San Luis Obispo Abandon in place an underground fuel tank located at Hearst Castle. The tank will be filled with an inert solid and quit in place.	NOE	
2004068330	Geotechnical Studies Caltrans #1 --Mendocino This work is part of advance studies needed to design new bridge structures and the roadway. The work consists of minor vegetation trimming, grading and river crossing to allow for drilling rigs to access, set up and drill at the bore hole locations.	NOE

2003021008	<p>County (Summit Station Area) Land Use Ordinance Amendment ED98-397, G980008N</p> <p>San Luis Obispo County</p> <p>Nipomo--San Luis Obispo</p> <p>The basis for recirculation of the EIR is due primarily to the release of new water information that conflicts with previous studies and the conclusions reached in the Draft EIR. As provided for under the California Environmental Quality Act (Section 15088.5(g)), a recirculated EIR shall be prepared to evaluate and focus on this new information. The project description remains the same, which proposes a Land Use Ordinance Amendment to delete two of the Summit Station planning area standards (South County), which currently applies to approximately 930 acres. The first proposed deletion would allow further subdivisions within Summit Station, which would allow for about 46 additional parcels. The second proposed deletion would remove the secondary residence limitation standard, which would allow up to 184 additional secondary residences.</p>	EIR	08/05/2004
2003081142	<p>Marina Coast Water District Regional Urban Water Augmentation Project</p> <p>Marina Coast Water District</p> <p>--Monterey</p> <p>The project involves the analysis of two major water augmentation supply options ("Seawater Desalination Alternative" and the "Recycled Water Alternative"), in addition to the analysis, capable of meeting water demands of redevelopment of the former Fort Ord as anticipated by the Fort Ord Reuse Plan (FORP) and its accompanying Final EIR.</p>	EIR	08/05/2004
2003111056	<p>Rocky Point Pump Station Replacement Project</p> <p>Orange County Sanitation District</p> <p>Newport Beach--Orange</p> <p>Replacement of the Rocky Point Pump Station. Demolition of existing pump station, construction of connecting pipelines, construction of underground wet well, installation of pumps, construction of above-grade electrical building and generator room.</p>	EIR	08/05/2004
2004041142	<p>City of Murrieta Vesting Development Plan 03-161, The Orchard-Stone Creek</p> <p>Murrieta, City of</p> <p>Murrieta--Riverside</p> <p>The current General Plan and Zoning designations are Regional Commercial for the property south of Delaney Circle and Business Park for the property north of Delaney Circle. The project would retain the existing land use designations and zoning. The project sponsor, Retail Development Advisors, is seeking entitlements to develop a regional commercial center, with some neighborhood uses, encompassing up to 460,000 sq. ft. of net rentable area. Grading for off-ramp improvements from Interstate 215 to Clinton Keith Road will also include additional acreage (approximately 14 acres) between the eastern border of the project and Interstate 215. The project also includes relocation of McElwain Road and a blueline stream.</p>	EIR	08/05/2004

2004062115	Beackstead Meadows - Major Subdivision Del Norte County --Del Norte Major Subdivision of a 155-acre parcel into 78 single family residential parcels and a remaining parcel. Public water and individual on-site sewage disposal systems will serve the development. The project will be accessed from US Highway 101. Dominie Creek flows along the project's eastern property line. A biologic assessment was prepared to address riparian corridor. A traffic impact study preliminary grading plan, on-site sewage disposal systems and noise study.	Neg	07/21/2004
2004062117	Lindstrom Final Map Subdivision FMS-03-11 Humboldt County Planning Department Eureka--Humboldt Approval of a tentative map for the subdivision of an approximately 1.23 acre parcel into six residential lots ranging in size from 6,258 sf to 7,720 sf. Lot 6 will be utilized as a parking area to the benefit of Parcel "A" per a previously approved conditional use permit (CUP-28-91M). Parcels 1 through 5 will be served by community water and sewer. The project includes an exception request to right-of-way width for a private access road and lot frontage. A reduced right-of-way width of 23 feet without frontage on a public road is being requested for proposed lots 1 through 5.	Neg	07/21/2004
2004062118	Lodi Unified 4th High School Storm Drainage Pump Station, Outfall and Bike Path Project Lodi Unified School District Lodi--San Joaquin The construction of a storm drainage pump station, an outfall structure and a bike path to serve an approved high school. Pipeline through Bear Creek.	Neg	07/21/2004
2002031009	Fairmead Freeway Conversion and Interchange Project. 06-MAD-99 KP 31.54/36.37 (PM 19.6/22.6), EA 06-293300 Caltrans #6 --Madera This project will convert a segment of Route 99 from a four-lane expressway to a six-lane divided freeway on an ultimate eight-lane right-of-way.	NOD	
2003042128	Emergency Response Center Project University of California, Santa Cruz Santa Cruz--Santa Cruz The project will construct an Emergency Response Center (ERC) and an associated Equipment Storage Building (ESB) on the UCSC campus. The ERC will be located on a 2.25-acre site on the south edge of the UCSC campus in the campus Corporation Yard and will provide space for the campus Emergency Operations Center, the Public Safety Dispatch Center, and the Campus Police Department. ERC will include the following primary elements: (a) construction of a 13,800 outside gross square feet (ogsf), two-story "L-shaped" building for the ERC; (b) development of parking areas and a short fire access road; (c) development of a courtyard for emergency events and general use; (d) installation of a stormwater management system; (e) installation of a communication tower; (f) installation of utility extensions and connections to existing services; and (g) installation of landscaping. Most of the ERC site is designated Campus Community Support in the campus' Long Range Development Plan (LRDP). A portion of the drainage improvements would be located on land designated Protected Landscape, in accordance with LRDP.	NOD

Neg	07/23/2004
2004061131	Injection of Ozone at Venice McLaughlin Center Regional Water Quality Control Board, Region 4 (Los Angeles) Los Angeles, City of--Los Angeles Under the oversight of the Regional Board, Stratus Environmental, Inc. on behalf of the facility and landowners, Mr. Larry Canchola and Mr. Mojdeh Daneshrad respectively, proposes to use C-Sparge™ to remediate the dissolved-phase petroleum hydrocarbon plume beneath the site. The C-Sparge™ technology combines low-flow (3 to 5 cubic feet per minute) air sparging with ozonation to oxidize petroleum hydrocarbons into benign byproducts, carbon dioxide and water. Ozone is generated onsite using a control panel with built-in compressor and ozone generator. Using perforated sparge points, microbubbles (10 to 50 micrometers in diameter) of encapsulated ozone are introduced below the water table, where the oxidation reactions take place. Four injection points, integral to the C-Sparge™ system, will be used onsite within and around the dissolved-phase plume. During the injection, no groundwater will be pumped. Sparging will be performed on a cycled basis with the well cycled on for 5 to 10 minutes. Cycle times (on and off times) will be adjusted, as necessary, to optimize system efficiency. During C-Sparge™ system operations, microbubbles of encapsulated ozone will be discharged into the subsurface beneath the site. No other known constituents will be discharged to the subsurface during system operations. The C-Sparge™ system will inject approximately five grams per hour of ozone at a flow rate of 3 to 5 cfm. Therefore, the total concentration of ozone injected into the subsurface during the system operations will be approximately 0.59 milligrams per liter.	Neg	07/23/2004

2004062127	<p>The Crossing at Marina Bay Richmond, City of Richmond--Contra Costa</p> <p>The proposed project involves the construction of three new office flex type buildings that would offer varying types of office space to tenants in various industries. Anticipated uses would mainly fall into the following categories: office, sales and service, and research and development. These uses are consistent with uses previously designated for the area under the Richmond General Plan and the Knox Freeway/Cutting Boulevard Corridor Specific Plan. The buildings will be demised to accommodate tenant spaces from 1,500 sf to 3,400 sf of lease area. The buildings are configured so that the grade doors (service side) face the rear of the site where the majority of employee parking is located. Parking in front of the buildings is intended for visitor and employee use. The structures are configured such that the front 20-24 ft. of depth is two story office and the remaining portion of the rear is single story, hi-bay service area. Each building will be two stories in height with the following areas: Building "A" = +/- 18,458 sf, Building "B" = +/- 31,210 sf, and Building "C" = +/- 24,840 sf. The total FAR for this project is 0.36.</p>	Neg	07/23/2004

2004069066	TSM 9-03/04-04 Plumas County Planning Department --Plumas Tentative subdivision map to divide 399.29 acres into 99 lots for single-family residential use.	NOD	
2004069067	Windsor Creek Subdivision Phase 3 Fish & Game #3 --Napa Installation of a 36 foot wide, 42 foot long Conspan ore-cast arch culvert over East Windsor Creek at the Bell Road crossing in Windsor, Sonoma County. The Conspan arch is a bottomless structure set on cast-in place concrete footings. The streambed inside the culvert will be lined with loose rock. The CDFG is executing a Lake and Streambed Alteration Agreement Number 1600-2004-0302-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, MLB Homes.	NOD	
2004069068	Piping and Outfall Construction Fish & Game #2 --Sutter Installation of a pipeline to replace an open ditch and construction of a 12" outfall to lateral 1. Lead agency prepared a negative declaration for a 316 acre residential subdivision of which the piping and outfall are apart. The agreement and this notice pertain only to the activities described above.	NOD	
2004048421	Americano Creek Watershed Gold Ridge Resource Conservation District (GRRCD) Petaluma--Sonoma Project work will include installation of a grade and sediment control structure in a normally dry upland gully draining to an unnamed seasonal tributary to Americano Creek. Approximately 1,500 cubic yards of balanced cut and fill will be used. The embankment will be 18 feet high and 150 feet long; it will create an impoundment of approximately 0.8 acre feet with a surface area of about 0.25 acres. The structure is intended to prevent further downcutting in an actively eroding gully and to trap sediment and bedload transported from elsewhere in the 105-acre watershed. Fencing will be installed along both sides of the gully to exclude livestock from the area. CNDDDB review and an on-site biological evaluation did not reveal presence of any special status plant and animal species. Nevertheless, special precautions, including a pre-construction briefing of the crew, will occur to avoid disturbance to any special status species potentially occurring on the site. A site visit was conducted on April 1, 2004, with the local Department of Fish & Game biologist, who confirmed that the project is categorically exempt.	NOE

No net increase in capacity.	NOP	07/26/2004
2004061138	City of Greenfield General Plan EIR Greenfield, City of Greenfield--Monterey The City of Greenfield General Plan process began in July 2003. Technical consultants have gathered data in areas such as traffic, noise, air quality, and cultural resources. The City's contract planning staff conducted an existing land use inventory by utilizing aerial photographs and field reconnaissance. Beginning in Fall 2003, three public hearings and workshops were held at Planning Commission and City Council meetings. These workshops allowed elected officials and the public to present their visions for the future of Greenfield and to discuss issues important to city residents. A draft land use diagram was derived from these workshops and was approved by City Council on October 10, 2004. The land use map shows land uses within the City limits and the proposed Sphere of Influence. Following the adoption of the General Plan, the Zoning Code and Zoning Map will be amended to be consistent with and to implement the General Plan.	NOP	07/26/2004

1997031065	<p>Monterey Regional Waste Management District (MRWMD) Master Plan Update and Revised Solid Waste Facility (SWFP)</p> <p>Monterey Regional Waste Management District</p> <p>MARINA--MONTEREY</p> <p>The proposed project is an application to the Monterey County Health Department (MCHD) for revision of the MRWMD's SWFP. The MRWMD is proposing to submit an application that describes a range of physical improvements and/or operational changes it plans to implement at the MPL. A number of the proposed actions are described in a report entitled "Updated Master Plan Report for the Monterey Peninsula Landfill (2004)" (hereafter "Master Plan Update") prepared for the actions needed to increase MPL waste capacity and service life. Because the Master Plan Update contains a number of actions proposed as SWFP revisions, by proxy, this initial study also evaluates the environmental effects of implementing the Master Plan Update. A second set of proposed actions are independent of the Master Plan Update. These actions are proposed largely to enable the MRWMD to meet projected increases in demand for solid waste disposal services within and outside of the MRWMD's service area.</p>	Neg	07/26/2004

2004061136	<p>P03-1451/P03-1548/P04-0260</p> <p>Riverside, City of</p> <p>Riverside--Riverside</p> <p>This project proposes to implement the final phases of a previously approved map TM 28728, subdividing 151 acres into 66 single family residential lots and 5 open space lots in the area bounded by Trafalgar Avenue to the north, Century Avenue to the east, the Alessandro Arroyo to the south and Rolling Ridge Road to the west. TM 28728 was originally approved in 1998 and was divided into four phases, in which phase 1 recorded subsequently. TM 28728 was created to implement a formerly approved Planned Residential Development (PD-001-912) which was approved in 1994 along with Tract Map 23027 originally encompassing the subdivision of 166 acres into 86 lots. Those lots proposed under TM 28728 never recorded under the original map TM 23027. As such, that portion of the map expired and a new map was required (TM 28728) to implement the remainder of TM 23027.</p>	Neg	07/26/2004
2004061137	<p>San Gabriel Valley Water Recycling Proj. - Phase IIA</p> <p>Upper San Gabriel Valley Municipal Water District</p> <p>South El Monte--Los Angeles</p> <p>This project consists of the construction and installation of approximately 20,000 linear feet of 8-inch to 24-inch recycled water main, one 2.1 million gallon reservoir, and one booster station. Operation of this project proposes to use approximately 4.276 acre-feet per year of recycled water for water consuming uses, primarily as irrigation, but also potentially including some other uses such as: cooling towers, boiler feed, and other various non-potable uses that require large volumes of water.</p>	Neg	07/26/2004

2004061149	04-025/PM 60787 6449 Rosemead Blvd., East Gabriel, CA 91775 Los Angeles County Department of Regional Planning San Gabriel--Los Angeles An application to construct four detached, two-story wood and stucco dwelling units with attached two-car garages. Three of the units will have living area of 1,778 sf each while the fourth will have 1,824 sf, and each unit will have a private patio. The existing tree within the property boundary and a 6' high chain link fence surrounding the site will be removed and be replaced with a 6' wall consisting of concrete plasters and wood panels with a concrete block base footing. The project also proposes to remove and recompact the top four feet of earth on project site to accommodate construction. A total of 1,050 cubic yards will be graded. Project access will be taken from Emperor Avenue. Applicant is also requesting yard modifications for less than required setbacks and distance between buildings.	Neg	07/27/2004
2004061153	ENV-2004-1755-MND Los Angeles City Planning Department Los Angeles, City of--Los Angeles Conditional Use to allow a private 3-story high school for 340 students in an M1 zone with parking for 64 cars on a 37,255 sf lot. The property is developed with four, 1-story buildings to be demolished (auto repair and a recycling center).	Neg	07/27/2004
2004061154	ENV-2003-9367-MND Los Angeles City Planning Department --Los Angeles Conditional Use Permit for a Commercial Corner development with deviations (hours, signage), including a change of use from auto service to (expansion of) a food mart, in the [Q]C2-1D zone. Hours: 24 hours a day, 7 days a week; Height: 16'; Parking: 16 spaces; Floor Area: 2,078 sf; Site Area: 20,482 sf.	Neg	07/27/2004
2004061155	ENV-2004-2587-MND Los Angeles City Planning Department --Los Angeles Conditional Use to permit on-site sale and dispensing of a full line of alcoholic beverages in conjunction with a 4,267 sf bar/lounge on 3 floors of an existing commercial building, with seating for 203 and hours of operation from 5pm to 2am, Mon. through Fri., and from 10am to 2am, Sat. and Sun., in the C5-4D zone; Zone Variance to permit required parking through lease in lieu of covenant for 20 spaces. 2004021121	Taylor Yard Park Development Project MND Parks and Recreation, Department of Los Angeles, City of--Los Angeles The proposed project includes the development of a park on a portion of the former Southern Pacific railyard, referred to as a Parcel D. The 40-acre parcel is owned by the California Department of Parks and Recreation (State), the CEQA lead agency for this project. Approximately 20 acres would be operated by the State as a passive park, and the remaining 20 acres would be leased by the City of Los Angeles for active park uses. The City's active recreation elements would include soccer fields, baseball fields, a multi-purpose field, basketball courts, tennis courts, and children's play areas. Parking would be available inside the park with easy access to all active recreation areas. Two new intersections would be created on San Fernando Road for park access. The streetscape improvements would provide a buffer between the park and San Fernando Road.	NOD	
2004032099	Fairway Drive Culvert Replacement Eureka, City of Eureka--Humboldt The California Department of Fish and Game is executing a Lake or Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant. The applicant proposes to replace the existing culverts at Fairway Drive with twin box culverts, as required by a court settlement, on Martin Slough, tributary to Elk River, Humboldt County.	NOD

2004069109	TTM 29420, E.A. 37758, County of Riverside, CA Fish & Game #6 --Riverside CDFG is executing a Lake and Streambed Alteration Agreement (SAA #6-2002-65)) pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Warren D. Williams, General Manager-Chief Engineer, Riverside County Flood Control and Water Conservation District, City of Riverside 1995 Market Street, 92501, phone (909) 955-1250. The applicant is proposing to alter the streambed to construct a portion of the Southwest Riverside Master Drainage Plane Line C, in conjunction with Griffin Communities construction of 61 single family residential tract homes on approx. 36.7 acres, as outlines in TTM 29420. The placement of the 96 inch pipe for Line C will result in the permanent loss of 0.506 acres of streambed and 0.223 acres of low quality wetland habitat.	NOD	
2004069110	Dunn Residential Beach Improvements Fish & Game #6 --Riverside The operator proposes to landscape the riverbank from its current condition to one which will allow safe access to the rivers edge. This action shall be accomplished by excavating the earthen section of shoreline and constructing a series of black retaining walls which will produce a tiered effect. The newly constructed terraces will provide space for the creation of flat multiple use areas and a sandy beach. An eight inch rip rap will be placed at the projects lowest point to prevent sand discharge into the river. All construction and grading shall maintain a level of no less than 1 ft. above 3 ft. behind the Ordinary High Water Mark. The project will result in the permanent loss of 0.10 acres of riparian scrub. The operator shall provide a one time payment of \$750.00 to the CDFG to mitigate (1:1 ratio) for the loss of 0.10 acres of riparian scrub. Mitigation cost is calculated from the current cost of riparian restoration at \$7,500/acre. Payment is due prior to implementation of any project related activities. Payment shall be sent to the CDFG, Colorado River Program, P.O. Box 2160, Blythe CA, 92226.	NOD	
2004069112	Storm Drain Stream Crossing Fish and Game, Lands and Facilities --Butte Installation of sotrm drain through creek bed by trenching. Lead agency prepared negative declaration for site plan review permit for 13,000 SF Church Sanctuary and Classroom Facility. Agreement and this notice pertain only to trenching activity mentioned above.	NOD

2003071003	Santa Ana River and Mill Creek Water Rights Application and Groundwater Management Plan San Bernardino Water Conservation San Bernardino--San Bernardino SBVWCD proposes to: 1) obtain a permit from SWRCB to appropriate water from the Santa Ana River and Mill Creek consistent with SBVWCD's existing rights and practices, 2) establish an updated operations plan for ongoing groundwater recharge activities, and 3) obtain an access agreement if necessary for ongoing recharge activities in the context of flood operations of Seven Oaks Dam.	EIR	08/12/2004
2003112088	Canon Manor West Subdivision Assessment District Sonoma County Permit and Resources Management Department Rohnert Park--Sonoma Sonoma County formed the Canon Manor West Subdivision Assessment District in 2001. The Assessment District will extend public water and sewer trunk lines to Canon Manor West. Public water and sewer will be provided by the Penngrove Water Company and the City of Rohnert Park respectively. Development of the proposed water and sewer distribution system will address potential public health impacts caused by possible contaminated groundwater. The Assessment District will also include road and storm water infrastructure.	EIR	08/12/2004
1999071010	Hitch Ranch Specific Plan Moorpark, City of Moorpark--Ventura The Specific Plan for Hitch Ranch is proposing to develop 600 residential units. Of the total units proposed on the project site, 80 single-family dwelling units will be located in Planning Area I. One hundred twenty one single-family units are proposed to be located in Planning Area II. One hundred fifty two single-family units are proposed in Planning Area III. One hundred twenty nine single-family units are proposed in Planning Area IV. Planning Area V will include 118 residential units, which are proposed as multi-family units.	NOP	07/28/2004

	As required in the General Plan, a minimum of 3 acres of land must be designated for Institutional land uses. This land use category would allow for the construction of churches, libraries, fire stations, and community service centers. Planning Area VI is a 3-acre site, designated for Institutional Land uses. This site can potentially support up to 37,500 sf of Institutional land uses.		
	Industrial uses would be developed in Planning Area VII. As planned, approximately 350,000 sf of industrial space is planned on 17.87 acres. It is anticipated that uses permitted under this designation would include light industry, technical research, and business park office uses.		
	In addition to the land uses described above, the Specific Plan area will include on-site detention basins, and both passive and active recreation areas.		
2004061159	Renewable Water Resource Management Plan for the Southern Reaches of the Calleguas Creek Watershed Camrosa County Water District --Ventura The project is an integrated set of facilities to reduce reliance on imported water while improving water quality through the managed transport of salts out of the watershed. The project includes water reclamation, salts management and adaptive management. Key elements include: beneficial reuse of tertiary treated wastewater, reclamation of high tds groundwater, introduction of replenishment water to surface watercourse to improve groundwater recharge, disposal of brines and high tds wastewaters.	NOP	07/28/2004
2004061160	East Elementary School Palmdale School District Palmdale--Los Angeles The Palmdale School District proposes to construct and operate a new elementary school in Palmdale. The school will be located at the corner of 27th Street East and East Avenue R-12. The school will accommodate approximately 1,000 students.	NOP	07/28/2004

2000079029	<p>High Desert Power Project Energy Commission Victorville--San Bernardino</p> <p>The project is the construction of a natural gas-fired, combined cycle power plant. Associated facilities include a new 230 kilovolt transmission intertie to the existing Victor Substation approximately 7.2 miles away; natural gas fuel supply pipelines; and potable and raw water supply facilities. In 2000, CDFG issued an Incidental Take Permit for the project pursuant to California Endangered Species Act. At this time, CDFG is amending the Permit because the project as implemented resulted in less habitat impacts that were anticipated. The amendment will 1) reduce the amount of habitat lands required to mitigate project impacts to the Mohave ground squirrel and desert tortoise, and 2) change the amount of habitat enhancement and endowment funds required.</p>	NOD	
2000091079	<p>Texaco Hollister Ranch Pipeline Abandonment Project Santa Barbara County Santa Barbara--Santa Barbara</p> <p>Abandonment of pipelines in a corridor approximately 7 miles long in the Hollister Ranch/Gaviota area. The corridor starts at Gaviota State Park and runs west through the Hollister Ranch to San Augustine Point. The pipelines run parallel to the coast and are approximately 1/4 mile from shore, crossing 11 creeks in a number of ravines.</p>	NOD
